## E-Z ADJUSTER WIRE SHELVING

### Adjustable Wire Shelving

Unique E-Z Adjust suspension hooks allow middle shelves to be adjusted, added or removed in seconds without disassembling entire unit. Simply lift shelf off post hooks and reposition to desired height. No tools. Features all the benefits of open wire shelving, minimizes dust accumulation, maximizes visibility, light and sprinkler penetration, and air circulation. Unit includes four posts, two standard shelves for stability at the top and bottom, and two Quick Adjust 400 lb. capacity shelves. All shelves adjust on 1" increments. Maximum rated load capacity is 800lbs. Load capacity may be increased to 1000 lbs. by adding an additional shelf in the middle of the unit.

**Shelf adjusts in seconds**

Each unit requires a standard wire or solid shelf at the top and bottom. See Nexel catalog page 5 or 10. For taller units and increased stability, it is recommended to add an additional standard shelf in the center of the unit. **E-Z ADJUSTER WIRE SHELVING** can easily be added to existing Nexel shelving units or retrofitted to most common shelving systems using standard 1" round grooved posts.
