

SECURITY UNITS

DOOR IS PADLOCKABLE FOR SECURITY

SHOWN WITH OPTIONAL CASTERS DOCUMENT HOLDER AND PUSH HANDLE

All units on this page, except Model No. MS2436P feature our mini-security module. Module consists of one back panel, two side panels and a padlockable flip-up door. Module must be mounted between two wire shelves of the matching size. Module can be ordered as a separate component and be retrofitted to existing Nexel units. All units are 21" high and offer 18" high interior capacity. Chrome finish.

Wire Shelving with Security Enclosures

Secure valuable equipment. Complete units include five shelves that adjust on 1" increments. Choice of one or two enclosed sections. All units 74" high.

To increase security of existing shelving units, order additional security enclosures. Chrome finish.

Wall Mount Security Enclosure

Wire construction increases visibility and decreases dust accumulation. Mounting brackets included.
